

Notice of Allowability

Application No.

10/699,401

Examiner

Andrew Belousov

Applicant(s)

ALLYN ET AL.

Art Unit

2174

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to 8/27/2007.
2. ☒ The allowed claim(s) is/are 1,5,6,8,15,16,19-21 and 24.
3. ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some* c) ☐ None of the:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.

THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

4. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
- (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
- 1) ☐ hereto or 2) ☐ to Paper No./Mail Date _____.
- (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

Attachment(s)

- ☐ Notice of References Cited (PTO-892)
- ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- ☐ Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date _____
- ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material
- ☐ Notice of Informal Patent Application
- ☐ Interview Summary (PTO-413), Paper No./Mail Date _____
- ☒ Examiner's Amendment/Comment
- ☒ Examiner's Statement of Reasons for Allowance
- ☐ Other _____

Examiner's Amendment

Claim 1. (Twice Amended) A computer method for providing tools for manipulating an object on a display device using a pointer comprising:

displaying an object on a display device;

determining if the object has been selected;

displaying a first toolset if the object has been selected, the first toolset providing
a first set of handles for manipulating the object;

determining if the pointer is stationary over the object;

if the pointer is stationary over the object for a threshold length of time, displaying

a second toolset, the second toolset providing a second set of handles for
manipulating the object differently from the manipulation of the first set of
handles while maintaining accessibility of the first toolset, wherein
maintaining accessibility of the first toolset comprises repositioning the
first toolset to provide space on the display device for the second toolset;

when a first handle of the first toolset is selected, performing a manipulation on
the object in accord with the first handle; and

when a second handle of the second toolset is selected, performing a
manipulation on the object in accord with the second handle;

wherein the threshold length of time is a first threshold length of time and wherein
the method further comprises the step of if the pointer is stationary over
the object for a second threshold length of time, displaying a third toolset,
the third toolset providing a third set of handles for manipulating the object

differently from the manipulation of the first set of handles and from the manipulation of the second set of handles.

Claim 2-4. (Cancelled)

Claim 5. (Amended) The computer method of Claim 1, further comprising the step of if the third toolset is displayed, maintaining accessibility of the first toolset and the second toolset.

Claim 15. (Twice Amended) A computer-readable medium having computer executable instructions for performing steps comprising:

displaying a graphic on a display;

displaying a pointer on the display;

identifying a position of the graphic on the display;

identifying a position of the pointer on the display;

displaying a first toolset, the first toolset providing a first set of handles operative to perform a first type of operation on the graphic;

if the pointer is positioned over the graphic for a threshold length of time,

displaying a second toolset, the second toolset providing a second set of handles operative to perform a second type of operation on the graphic

while maintaining accessibility of the first toolset, wherein maintaining accessibility of the first toolset comprises repositioning the

Art Unit: 2174

first toolset to provide space on the display device for the second toolset;
when a user interacts the pointer with a first handle of the first toolset, performing
the first type of operation on the graphic; and
when the user interacts the pointer with a second handle of the second toolset,
performing the second type of operation on the graphic;
wherein the threshold length of time is a first threshold length of time and wherein
the method further comprises the step of if the pointer is stationary over
the object for a second threshold length of time, displaying a third toolset,
the third toolset providing a third set of handles for manipulating the object
differently from the manipulation of the first set of handles and from the
manipulation of the second set of handles.

Claim 21. (Twice Amended) A system for providing tools for manipulating an object
using a pointer comprising:

a component that displays the object and a first toolset, the first toolset providing
a first set of handles for manipulating the object;
a component that, when the pointer is stationary over the object for a threshold
length of time, displays a second toolset, the second toolset providing a
second set of handles for manipulating the object differently from the
manipulation of the first set of handles, wherein the accessibility of the first
toolset is maintained while the second toolset is displayed and wherein
maintaining accessibility of the first toolset comprises repositioning the

first toolset to provide space for the second toolset;
a component that, when a user interacts the pointer with a first handle of the first toolset, performs a manipulation on the object in accord with the first handle; and
a component that, when the user interacts the pointer with a second handle of the second toolset, performs a manipulation on the object in accord with the second handle;
wherein the threshold length of time is a first threshold length of time and wherein the system further comprises a component that, when the pointer is stationary over the object for a second threshold length of time, displays a third toolset, the third toolset providing a third set of handles for manipulating the object differently from the manipulation of the first set of handles and from the manipulation of the second set of handles, wherein the accessibility of the first toolset and the second toolset is maintained while the third toolset is displayed.

Claim 23. (Canceled.)

Reasons for Allowance

Independent claims 1, 15, and 21 specify a method, computer readable medium and a system, respectively, which require:

"wherein the step of displaying a second toolset comprises if the pointer is

Art Unit: 2174

stationary over the object for a threshold length of time, displaying the second toolset while maintaining accessibility of the first toolset; wherein maintaining accessibility of the first toolset comprises repositioning the first toolset to provide space on the display device for the second toolset; and wherein the threshold length of time is a first threshold length of time and wherein the method further comprises the step of if the pointer is stationary over the object for a second threshold length of time, displaying a third toolset, the third toolset providing a third set of handles for manipulating the object differently from the manipulation of the first set of handles and from the manipulation of the second set of handles."

Vrobel, Clark, Smith and Isaacs do not teach or suggest the above-mentioned limitations of the claimed invention. Accordingly, each of the dependent claims are allowable by virtue of their dependency upon claims 1, 15 or 21.

Conclusion

1. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Belousov whose telephone number is (571) 270-1695. The examiner can normally be reached on Mon-Fri (alternate Fri off) EST. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid can be reached on (571) 272-4063. The fax phone number for the organization where this application or proceeding is assigned is 571-273-3800.
